Comments Details

Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Proposal will play negatively on the local environment and habitat loss harming wildlife and the huge impact of the loss of green space not forgetting the air quality through pollution and the change of the character of the area and countryside The generation of traffic congestion will be hugely increased on the main A227 and surrounding lanes as the traffic is already a massive concern with lengthy tail back with the local communities trying to get to the local schools where there are three in close proximity as well as those accessing the GP's, library, shops, sports facilities and more!

Kind regards
