Reasons for comment:

Comments:	I do not support the development of the currently empty building into a restaurant which primarily sells HFFS (high fat high sugar) products. The UK already struggles with the twin issues of rising amounts of obesity in both adults and in particular children which this restaurant will do nothing to help reduce. Gravesend already has two existing McDonald's so I not not support the edition of a third, especially as this is so close to a large secondary school. We know from government research that the younger members of society are heavily influenced buy junk food adverts which in turns means are more likely to purchase it when it is on offer. I assume the council has/will conduct an impact assessment on the placement of this restaurant which I doubt would support it being so close to a large school. The council has a responsibility to protect the health of the population and I don't see how this development goes anyway to doing that. I am also concerned about an increase in rubbish being left in woodlands park if this development goes ahead.
-----------	--

I also think that there will be a noticeable traffic increase which will creat further delays and issues on one of the busiest routes into Gravesend.

Kind regards
