Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: Dear Case Officer ,
Thank you for notification of 20251315 --
I am a neighbour that faces this property .
This property has been very significantly extended over the last several years --
this application will now be the fourth - and I question the size and need of this latest application , now which must well extend the property above the original footprint of the property.
The impact and character will be excessive in its current location in the area of Greenbelt .
The request for " extending dropped kerb " will have a significant impact on the frontage view of the property -- ie the character of the local properties designs is to incorporate a low front wall , distinguishing front garden from public footpath - elimination , or partial elimination , of this will give a " garage forecourt " appearance to the property and this will be accentuated by the frequent " flow" of a variety of vehicles that are being maintained in the widened garage at the property - whether as a commercial business or as a "side line " , often carried out in early eves and some weekends .
Adjacent neighbours abd residents are already experiencing short and longer term nuisance , inconsiderate casual ,parking , often restricting access to private driveways from local schools dro offs and some local shoppers at Camer parade -- the extension of a dropped kerb at the property will simply encourage the increasing frequent turning etc at this busy junction of Tradescant and Green Lane .

For the above reasons I object to the proposal
Thank you

Kind regards
