Reasons for comment:

Comments:	This should be kept green belt land, roads will not be able to cope with extra traffic as problems already with this, all other amenities cannot cope already, the wider issue is never looked into, Meopham is a village not a town, should be kept this way for historical reasons, people paid extra for their house because of green belt, why should that now be taken away from them just because of greed from others that do not even live here or care about our community. They do not understand the awful implications all these new buildings would cause, and they don't care, but Meopham community do care and we want to keep our village as just that. Everyday already now there is problems with traffic on the roads, the roads are in a disgusting state with pot holes, massive Lorry's trying to get down country lanes where they don't fit, we had the road collapse at Cricketers Drive at one time, the size of Lorrays that come through our village this will happen again, it cannot and should not have to cope with this amount of traffic, the disruption is immense and very frustrating for all who live there. There is flooding on these roads now, take out the natural drainage system and it will be worse, we also need to remember the wildlife that needs these spaces, it's their home, they need these spaces to survive also. There is plenty of brownfield places to build on, look at those sites, stop taking countryside that people need for their mental health, lovely fresh air walks, would be taken away if these monstrosities were built, it wouldn't be for the people of Meopham either, it's just to make as much
-----------	--

money as possible, stop trying to ruin the history Meopham has and leave it as it is.

Kind regards
