Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Meopham , Istead Rise and all the other villages along the A227 struggle with traffic flow daily this is worsened at peak times and school run times of which there are several along the A227. Also used frequently as a rat run when the A2 and or the M20 are congested or shut. With potentially adding another 1500 vehicles from this new development alone and the 100's of other vehicles from other potential new build sites in the area this will all impact greatly on the communities whose lives are already blighted by the congestion, pollution, noise . Also let's consider the impact on wildlife that the current traffic brings. Are roads and lanes are not wide enough and maintained well enough to cope and for this reason I strongly object. Residents of Istead Rise already risk serious injury should they attempt to walk/cycle the A227 to Meopham/ Meopham station there is no footpath for approx half a mile and bus services are in frequent adding more traffic to are roads would make any attempt to walk/cycle between the two villages even more dangerous than it already is .also

Kind regards
