Reasons for comment:

Comments:	The Bark Park is one of a kind in this area, it is just what dogs need. It is a safe place for them to play regardless of size, breed, temperament, whether it be solo or in a group. The park has had a lot of thought put into it, a large open space, with suitable activities. Dogs have a really good time of limitless exercise, fun and enrichment, which so important to their well-being. We observe much improvement in their confidence and training skills. As a frequent visitor I have seen how much the dogs enjoy their time there, it is an absolute joy. There are simply not enough local parks where you can let your dog off-lead in a purpose made enclosure, without having to worry about challenges and other distractions. Public parks get busy at the best of times, whether it be with other dogs running around or children playing, particularly in school holidays, making off lead exercise impossible with nervous/anxious dogs. The flexible hours during the summer months are a bonus when it is not possible to exercise your dog during the heat of the day. The Bark Park is perfect, please allow our dogs to have the freedom they deserve. Thank you.
