Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I would like to strongly object to the planning application on the site for the following reasons: 1) Since the "creation" of this site there has been significant tarmacking which has resulted in a completely unjust environmental impact with regard to the flooding that has occurred on these country unlit lanes 2) The road of white post lane is far too narrow for the sheer value and width of the vehicles and Lorries being used. Sole street is a hamlet and is therefore an unsuitable around the volume of traffic and vehicle usage this site has already generate and will only get worse should the planning go ahead. 3) The safety of the community. Already villages have been verbally assaulted and threatened with physical violence when challenging the illegal actions of those on the camp site. Even when not challenging these members they are aggressive and dismissive to the local community 4) The trees and banks along the side of the roads have already had unimaginable and unrepairable damage to them. This is through low loaders coming down unfit roads (presumably without a movement order due to unfit route which I don't have to point out the legal issues there) and dragging the caravans which won't fit through the narrow lanes. Therefore site members have taken it upon themselves to chainsaw and cut down 1000 year old trees causing untold criminal damage. Trees cannot be replaced and residents live out here to respect and immerse in the nature of the countryside- not to see it destroyed by illegal site members. 5) there has been an increase in rubbish and fly tipping since this site has been in use- with rubbish being burnt on the site and then magically appearing elsewhere
-----------	--

6) there is no where for their water to be sourced from which makes you question what is occurring at the site

7) this lane is very popular with dog walkers, walkers, cyclists and horse riders but has now become dangerous and hazardous effecting the quality of life for residence.

I strong disagree with this order to give the permission for a site to be approved and do not understand how in anyone's good consciousness this could be approved.

Kind regards
