Reasons for comment:

Comments:	This site has already been devastated by the illegal siting of at least 10 mobile homes, 15 touring caravans and up to 30 vehicles. The entrance has illegal fences, brick walls and gates that have completely spoilt the natural landscape and beauty of the previous space. The lane leading to the site has seen several established trees destroyed by the residents when trying to move their illegal units onto the land. This shows a complete disregard for the environment and habitats of nature. The complete failure of the council to provide a 5 year plan for traveller sites should not mean that this space can just be inhabited illegally. Gravesham has many brown field and grey belt locations that are far more suitable for the locations of traveller sites. The infrastructure around this site is rural and completely unsuitable for the high level of traffic already being generated. The local area is already at maximum capacity for the GP surgery and local schools. With an additional 20 to 30 families looking to move permanently on to this site there is no capacity to absorb them. This land is green belt and should be returned to its former beauty
