## Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	<p>I object</p> <p>This is an unsafe and unnecessary development on greenbelt land when other grey belt and already built on land is available near by.</p> <p>Our area is a village with important green spaces. Green spaces needed by nature and animals. But also needed for agriculture. Where will our food come from if all greenbelt and farming land is built on?</p> <p>This site is next to a primary school and special educational needs school. The access and development will be dangerous for road users and also children attending the school.</p> <p>There is not the infrastructure to support these developments - school spaces, doctors etc.</p> <p>the roads are unsafe as they are and flood frequently as well as multiple crashes. This development will only seek to worsen this picture.</p> <p>There is no good that can come from building on our green fields. Our landscape. Our environment. Our kids. Our safety. All at risk. And all at risk with no benefit to us as residents. Only to those with plans to increase their wealth.</p> <p>I wholeheartedly object.</p>

Kind regards
