Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to this area being used for housing, there is insufficient water and sewage, doctors surgery already at capacity, cannot get to the local hospital in the morning, roads get blocked. Roads in the local area are too narrow and can't take current traffic, certainly cannot take another 1400 cars here. Not enough school facilities and their suggested amount is no where near enough. It would be joining 2 villages, which should not happen. We have constant traffic problems now if the a2 closes we have large amounts of traffic and all the surrounding villages so much so that there are constant blocks and we cannot get off driveways. Add another 1400 cars constantly and no one will move for hours. These are villages, not towns, and the villages should not be compromised. Road edges constantly have potholes which are becoming increasingly dangerous, cars go too fast in the narrow lanes, makes it dangerous for walkers and push bike riders as there are no paths or street lights. The environmental damage adding these houses in would be detrimental. With green space disappearing and wildlife habitat reducing decreasing green space would be devastating. So for these reasons I strongly disagree to this planning application.

Kind regards
