Application Summary

Address:	Nuralite Industrial Estate Canal Road Higham Rochester Kent ME3 7JA
Proposal:	Application for removal of condition 4 ,6,12 and variation of condition 7 attached to 20190290 - The proposal is for the systematic redevelopment of the existing Nuralite site. This includes the importation of inert materials to cap, and landscape the historic asbestos landfill, thus containing its contamination risk. To demolish the existing buildings of the Nuralite industrial estate, deal with existing contamination, both through capping and removal of areas of hydrocarbon pollution, the laying of new service and utility infrastructure and the construction of 11 new purpose built light industrial type units and a site office; to allow removal of passing places, temporary traffic controls, Archaeological works and implementation of a permanent TRO for all traffic.
Case Officer:	Mrs Lisa Fisher

Reasons for comment:	
Comments:	I would like to highlight that the document / map included in the application detailing the proposed one way system TRO is inaccurate. The road names on the document are wrong, I would suggest this makes the application inaccurate and confusing for anybody assessing the application and making decisions about its approval or rejection. Please can you confirm that an accurate map will be submitted to correct the mistakes. Kind Regards [REDACTED]
