Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I wish to formally object to the proposed development on the grounds that it constitutes an overdevelopment of the site and would have a severe and detrimental impact on our property, amenity, safety, and wellbeing. We intentionally purchased an end-of-terrace property in order to benefit from the sense of space this provides. Although the proposed structure would not be physically attached to our home, its extreme proximity would remove the very benefits of an end-of-terrace property, significantly reducing the sense of openness around our house. Our property has north-facing windows which provide much-needed natural light and distant views across rooftops. These windows do not currently overlook neighbouring gardens. The proposed development would remove these views, block natural light, and create a feeling of being enclosed, blocked in, and overlooked. This would have a clear negative impact on our living conditions and overall wellbeing. The proposal includes a two-storey structure matching the height
