Reasons for comment:

Comments:	<p>I object to this planning application [REDACTED]</p> <p>[REDACTED] It is part of the greenbelt and should be protected to ensure Meopham stays a village within the countryside. It is important to preserve our natural environment for sustainable and ecological reasons. Part of Meopham's charm and character is that of the open fields and countryside, where people walk and take dogs out. By building houses here, you are restricting space for exercise. By building on these fields which are agricultural, this reduces food security. Wildlife needs to be protected and removal of trees and hedges will damage habitats for birds, bats and insects. This is already becoming a busier area; with the aging population there is reduced capacity at the GP surgery, and children getting into the schools in Meopham. By building more houses, this is going to massively affect the local infrastructure. The increase of traffic will negatively impact all using Wrotham Road, including those who live on it and those walking to and from the schools, becoming a safety issue, where the A227 is already at capacity. The proposed entrance between green lane and the parade is a poor choice, as you are unable to see clearly currently, and again poses a massive safety issue. This area already experiences unsafe parking and traffic. This will create increased light pollution and air pollution also. Of the 8000 people currently living in Meopham, I don't believe anyone will agree to this planning application. Meopham needs to be protected as a village.</p>
