Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This site has been developed illegally and is being overpopulated with caravans, lodges and touring caravans. I strongly object to the development of this green belt site as the land has been illegally developed with large caravans already on site, in contravention of previous injunctions. There has been significant damage to trees and hedges along the narrow access road to the site. The damage was caused by residents of the site (or their sub-contractors) cutting trees with chain-saws to enable access for wide vehicles carrying oversize caravans and lodges. The road was illegally closed by the these individuals causing diversions to local residents. When approached the residents or their sub-contractors were aggressive and intimidating to any questions being asked. There have been questions raised as to how the water and other utilities have been supplied to this site as they do not have the adequate permissions to supply to these remote fields. There has been an increase in anti-social behaviour including burning of rubbish, excessive noise, speeding quad bikes and blocking of the road with deliveries of hard-core, asphalt, diggers and other land moving equipment.

Kind regards
