Reasons for comment:

Comments:	White Post Lane is not a suitable area for a travellers site. It is greenbelt! The lane is extremely narrow with only a few places for passing cars. The lane has been completely closed on numerous occasions whilst the mobile homes are being delivered. In order to gain access to the site many mature trees were hacked down. The site can be seen from the lane and the bright external lights on the site do not belong in a rural setting. The entrance and exit from the site is on a dangerous bend. Large, tall gates and lots of fencing have been erected. The planning application submitted refers to a modest 'timber field gate'. Clearly the large electric gate which has been installed, is far from a 'field gate'. Dogs are barking and howling throughout the night which is extremely distressing. The applicant displays little respect for the local community, the environment or indeed Gravesham Borough Council. This application should be refused.
