Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	There are key detail left out of this planning application. Alterations to existing restaurant etc... Does not include the fact that all of these alterations are in order to turn this building into a new McDonalds resturant. This will be the 6th McDonalds within 6 miles of this location. The only reason they are building it here is to be directly next door to a large Secondary school, which is consistent with McDonalds strategy of building unhealthy fast food resturants right next to schools in order to entice childrewn into unhealthy eating, as can be seen with the drive through mcdonalds built next to Laigh Academy in Dartford. They could argue that they wanted to be close to the A2, but if that had been the case they would have purchased property closer to the motorway near the tollgate for example where someone else is already developing land for a new motorway service station, M+S food and other food services. No, this is to be close to a Secondary and Primary school. They also want to open this restuarant in a residential area with no other shops or development and a high traffic road which can't handle much more traffic coming off the motorway and past peoples houses

Kind regards
