Reasons for comment:	
Comments:	Green belt must not be built on otherwise villages will be merged, countryside and natural habitats will be destroyed and local community amenities and infrastructure will be severely impacted. An approx increase of 1450 vehicles on our already crammed local, crumbling country lanes will be a disaster, adding noise pollution in their wake. Drainage issues must be satisfactorily addressed in advance and laid out clearly. The development will cause light pollution and the cumulative impact on the issues flagged above, of all the proposed developments will multiply accordingly. Further water companies must confirm they have capacity to deliver fresh and waste water services to all proposed developments.

Kind regards
