Good evening

We recently received notification of the above planning application.

Having reviewed the full application, I am at a loss to understand how anyone can reasonably approve or reject it when it makes reference to the relocation of an existing lamp post, yet provides no information regarding where the lamp post would actually be moved to.

I appreciate that approval for the relocation of the lamp post may not fall within the remit of Gravesham Council. However, surely the necessary approval should be obtained, or at the very least the proposed alternative location clearly identified, before this planning application is considered.

Without this information, it is difficult for residents or the planning authority to fully understand the potential impact of the proposal and therefore make a properly informed decision.

I would therefore ask that this matter is clarified and that the proposed new location of the lamp post is identified as part of the application before a decision is made.

regards
