Reasons for comment:

Comments:	<p>there is only one suitable access to this site - onto Green LANE- yes it is a lane and not fit to support a further 150-200 cars exiting daily - and then returning- . The village has 3 schools and this site could possible accommodate a family using Meopham Primary. If a family has a child going to the Senior school- its probable they will be driven - as many parents both work. Its all about access / volume of traffic/ cut though past Camer Park/ all LANES. the exit left towards Sole Street and Cobham again uses a single lane- Norwood lane has no footpath - a key safety concern. Concerns about drainage as the A227 can become flooded so losing further green belt will impact . Is there sufficient sewer facilities - .i know this was an issue when Ebbsfleet Garden City was being built- Northfleet Sewers was at maximum capacity. I have read England will face drastic measures due to extreme drought next year- we cant support current homes in Kent - hosepipe ban this year- so how can we support further new build/ key concern is volume of traffic and needless loss of green belt which can be farmed</p>
-----------	--

Kind regards
