Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I object to the plans at this site for the following reasons; · The site would make the local roads unsafe due to the additional traffic that would be created coming on to Wrotham road once complete. The building works traffic would also be very hazardous. · There are not enough local transport links which would mean the site is reliant on self drive transport which would be unsustainable for the local area. · The number of new residents is unsustainable for the local area's amenities and infrastructure, which are already strained. · This is Greenbelt land and should not be built upon. Building on Meopham Greenbelt land would destroy Meopham's character and beauty. · The area would become unsafe for pedestrians who also use local lanes for routes of travel. · Slow-moving traffic around the school areas will cause harmful levels of pollution to any local residents, including school children. · The development would cause significant light pollution; Meopham is an area of natural beauty and at night you can get a good view of the stars. This would be impacted. · There are 5,500+ Brownfield sites in Gravesham which should be prioritised for development before Greenbelt land is targeted. · There are many different species of birds and wildlife in the area that use the Greenbelt spaces for nesting and surviving. This scale of development would destroy that.
-----------	---

- The plans risk merging of areas which goes against Greenbelt policy of preventing urban sprawl.
 - The area is prone to water build-up during rainfall periods with our Greenbelt already acting as a way to absorb water and prevent flooding. This development would cause flooding to local communities.
 - It is currently very hard to get a doctors appointment and imagine this will make things far worse.
 - The Greenbelt acts as a carbon sump, we should protect it and develop Brownfield sites instead. Gravesend has so much potential including riverside development which would improve the area not detract from it. These plans very much make the area worse rather than improve it which should be the aim.
 - Meopham's character comes from farmland and open field, this should be protected. But more than that, farmers use the land for their livelihood and we should be helping them, not harming and destroying their livelihoods with plans like these.
-

Kind regards
