Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I am objecting to this planning application for the following reasons: 1. Developer is intending to have a dangerous access for cars onto what is already a very small rural lane. 2. This site is high grade farmland which contributes to our food production. It is really important that as a country we are ensuring we can feed ourselves (using our farm land) rather than rely on importing food from other countries. In an unsettled time, we need to be able to feed our nation from within. 3. More residents living in Meopham will mean more cars using the A227 which is already an extremely busy road with accident hotspots and schools situated close to it. HGVs and large vehicles use it as a cut through already. This will increase with more residents living in Meopham. 4. Meopham is a village with some lovely natural areas of outstanding beauty, this space is greenbelt land which has not been released from the greenbelt boundary. 5. GP and NHS services area already overstretched. We can't get NHS dentist places in the area at the moment. 6. The lower Thames crossing plans will already increase traffic along the A227. When there is a problem on the A227 the local side streets and other routes suffer badly with vehicles blocking roads due to them being so narrow. 7. Schools in the area are accepting children from out of the area which means more cars using the A227 at peak times so parents can get their children to school.
