Dear Mrs Sahota

**Re: 341 Rochester Road, Chalk, Gravesend, DA12 4TH.
Rear Extension with alterations to create a drive to the front and to dig up the drive at the rear of the house to create a private rear garden.**

Further to our meeting on site for the Pre-Application Enquiry, PRE20240103, we hereby submit a planning application for the alterations discussed. We have included section drawings of the proposed alterations to ground levels to the front and rear in respect to the creation of a drive at the front and removal of the existing drive to the rear. Removing the drive will enable a private garden to be created.

We trust everything is in order. Please do contact me if an adjustment to the proposal is considered to be required.

Yours sincerely
