Comments Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I support the requested planning application for off road parking for the following reasons.
There will be less availability for parking on both sides of the road. This will facilitate a better flow of traffic. Presently it is difficult for buses to pass and could possibly be the same for emergency vehicles.
[REDACTED] I now have to park with 2 wheels on the pavement because a few years after I moved into Chalk Road, residents, including from the flats, started to park opposite. Previously there was no parking opposite so it was not necessary to park with 2 wheels on the pavement. If permission for off road parking is granted and no cars are parked on that side of the road, any vehicles parked opposite can place all 4 wheels on the road. If off road parking was much more affordable then many more of us would also put in an application for off road parking, including myself.

Kind regards
