

20260207 land north of Camer Rd

I strongly object to this outrageous proposal

- **Potential to raise current population of Meopham by approximately one third.**
- **Infrastructure already insufficient.**
- **Additional strain on already overstretched GP and NHS services.**
- **Schools in Meopham already at full capacity.**
- **Potential to increase local traffic by 1,450 vehicles, plus delivery and service vehicles.**
- **Meopham relies on the A227 for nearly all travel, making congestion a serious concern. Increased traffic risks road safety, emergency access, local business health, and pollution; limiting traffic is vital for maintaining Meopham's accessibility and quality of life.**
- **Whilst there are local shops within walking distance at Camer Parade, the A227 will be used to access supermarkets for weekly shops and other main shopping centres.**
- **The proposed two-form primary school with capacity for 420 pupils is badly situated and would further increase severe peak time traffic congestion during drop-off and pick-up times.**
- **Local sideroads cannot support diversions when required.**
