Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This application has already been turned down and a High Court Judge has a granted, no caravans to be placed on this site . This is an area of natural beauty and forms part of the north downs as outlined by Kent County Council. It's top quality farm land. It has now been trashed and the land almost covered in rubble and tarmac to provide roads and hardstanding . 7FT high close boarded fencing everywhere , electric gates , brick walls and peers. Several illegal placed static homes and caravans plus vehicles. This is urbanising a rural area and is not in keeping with the surrounding area . This should all be cleared again forthwith and returned to farmland. This is a narrow country lane , mostly single track and doesn't lend itself to the volume of traffic that a site like this would generate . There are several court injunctions on this land forbidding the use of caravans etc. It's now time for Gravesham Council to act and put an end to this nonsense that has gone on for far too long and cost us thousand of pounds in the meantime. In fact you should be acting on the courts decisions and not considering any planning applications until the rule of law has been enforced and followed in the first instance.

Kind regards
