adapted to the intended purpose.

It is a product intended for manual or sprayed application.

The exclusive use of the Natural Hydraulic Lime binder and its special composition results in an excellent compatibility with the old substrates, where not only the physical and mechanical compatibility stands out but also the high chemical compatibility.

The features and benefits of NHL Render (CAL RB) are:

Mechanical Characteristics:

Granulometry: < 3,5 mm

Mixing water: 14,0ltrs ± 1,0 %(CONSOLIDATION)

Mixing water: 5,0ltrs ± 1,0 %(RENDER)

Theoretical Consumption: 18,0 kg/m²/cm

Compressive Strength: Class CS II (EN 1015-11)

Coverage:

1.7m² @ 10mm (max 20mm per coat)

Availability:

25kg paper bag | 42 x 25kg bags per pallet

Every effort has been made to ensure the accuracy of the colour and texture of products on this website but due to the limitations of technology, we strongly recommend that sample products are purchased for testing in situ prior to the full
