Reasons for comment:

Comments:

This will negatively affect the light pollution of the area and will be an eyesore.

This could also confuse local wildlife that live around the park nearby and could cause problems for them, specifically birds.

The light with the logo on it will also encourage unhealthy eating for the children visiting the local park. Parks are for keeping members of the public healthy and the lights attracting children should not be there to counteract healthy exercise.

The lights will disrupt the neighbours opposite and next to the site during the night time and they may be unable to sleep due to the extra light.

This is also a green area of Gravesend, where there is lots of greenery and nature. This will destroy the natural feeling of the area around.

Kind regards
