Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I object to the proposed development for the following reasons: 1. The land is green belt land. As I understand it, there is an injunction prohibiting this development. 2. The damage to trees and verges by the transporting of the mobile home to the site is horrendous. This must not be rewarded by granting permission retrospectively. 3. An aerial view of the site shows, not only that an unauthorised entrance has been created, but roadways have already been created on the site. This indicates intention to add further mobile homes, caravans, or other such buildings to the site in future. Any retrospective permission would encourage further unauthorised development, resulting in further damage to vegetation and wildlife. 4. Further development will create additional traffic on a narrow lane. 5. The planning application itself states that there are no trees adjacent to the site. That may be true now; but was definitely not true at the time the application was made. I understand further trees have been destroyed this week. 6. The application also states that the applicant has no plans for rubbish disposal. Those with so little regard for following the usual processes should not be rewarded by gaining retrospective permission. It is unfair to those who abide by the law and follow correct procedures.
