Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	Please stop trying to build on green space! So many of the Gravesham villages are at threat to these property developments. These villages don't have the infrastructure for more house, more vehicles on the roads and more people!! Seeing all the plans for so many surrounding villages to the one I've grown up in, it's crazy how many houses are being proposed... the larger main roads surrounding and linking all these areas are not going to be able to cope, let alone the villages country roads and lanes! Then there's the schools, already oversubscribed and struggling! Doctors surgeries that cannot cope with the people they have registered there already! Our healthcare sector is under so much strain! The wildlife in these area, all going to be ruined! Not to mention how much affect all of this is going to have on the current residents mental health and wellbeing! Residents have chosen to live in villages and countryside for a reason - and that reason is definitely not to support councils and government making it into a concrete jungle!! If this application is approved how long will it be until another neighbouring bit on green space is chosen? It's just a knock on effect that is not going to stop until
-----------	---

there is no green space left. And once it's gone, it's gone forever!

For all the reasons above and sooo many more, I strongly object to this planning application, as I do with all the others in surrounding areas!

Kind regards
