Reasons for comment:	
Comments:	I believe on the ground that introducing a new mosque facility would be ideal for the public who may wish to not have to travel a certain distance to another mosque. This religious building would help with bringing solidarity and diversity within the community as well as providing a sense of inclusion for the people. Opening this place of worship would also increase visits from neighbouring boroughs and also indirectly help build up the area and provide a source income as an attraction from the mosque

Kind regards
