Reasons for comment:

Comments:	<p>The local infrastructure is already beyond capacity and the impacts of this proposed development will result in:</p> <p>100-200 more cars on the road which during commuting times is already grid locked.</p> <p>Local schools are already struggling with capacity and will therefore exacerbate this challenge.</p> <p>This is also the same for the GP surgery and other public services.</p> <p>There are significant drainage issues in the local area and this proposed development will increase floods to roads as a direct result of building on green/grey belt land.</p> <p>I understand that there would also be impact on some rare wildlife species if this development went ahead.</p> <p>Above all, the proposed developments locally will slowly start to merge the local villages creating a noisy town. It's time to stop destroying out beautiful British countryside and identify better sites in or around the main towns where the infrastructure could support developments.</p>
