## Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	<p>The A227 is a very busy road, when it was closed recently it caused chaos. The proposed Lower Thames Crossing will see increased usage particularly when the M25 is busy or blocked. This development will increase road usage further and affect everyone who lives here negatively. These negative effects are further enhanced by the lack of public transport.</p> <p>The development will impact the environment for the fauna &amp; flora, many native species present will be lost especially birds, bats and reptiles. The area is subject to flooding too, increased building will likely worsen this.</p> <p>It is not a grey belt area but GREEN belt and should thus be protected from development to ensure future generations can enjoy our countryside.</p> <p>Increased pollution from cars and lorries with periods when the A227 will affect residents and wildlife. School buses will be affected leading to longer journey times, meaning extending already long days for children.</p> <p>I object most strongly to this development for the above reasons.</p>

Kind regards
