Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I wish to strongly object to this development on green belt land. Any such development would cause irreparable damage to wildlife within this area and ancient woodland and protected species.</p> <p>The A227 is already struggling to cope with traffic and a sink hole has occurred in the past, this traffic will only increase in both volume and weight with such a development not only causing traffic issues but also air quality issues. This area has little to no efficient transport links to other transport hubs to take the pressure off.</p> <p>This area is well know for its flooding issues which would only get worse if this planning is allowed to proceed.</p> <p>Villages should maintain their individual characters and not be merged into one large development. Local infrastructure is already struggling to cope.</p> <p>Please do not allow this development.</p>
