Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I object to this proposal as the increased number of tanks (currently temporary) will lead to more unsuitable heavy goods traffic along unsuitable narrow country lanes. This creates a safety issue for cyclists, walkers and children going to and from school. These narrow lanes are a feature of our landscape and are being eroded along with the banks and hedgerows by the volume of heavy and wide machinery. If approved, the planning will allow for a permanent change from rural to industrial. Evidence of this can already be seen in the form of the carpark with ultra brightly lit barrier which would be more at home in a logistics facility. This plan for permanent siting of existing tanks along with allowing for additional tanks is not in keeping with the rural area or the protected landscape which is a feature currently enjoyed by locals, wildlife and visitors.
