Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I've looked at this application and believe it does not cover all the points Rebbeca Harrison raised in her previous comments / report.

Namely in relation to soundproofing.

Also there is no mention to regularly changing the carbon filters which would cause us neighbours pollution sound and smell.

I've personally had issues over the last year with the Authenic Turkish Kebab house located at 147 parrock street (next door)where the shop owners don't change the filters and the area outside smells.

I had this issue throughout the summer gone where everytime I opened my windows my flat smealt of kebabs.

Fortunately I'm now moving out as my partner has said she's going to leave me because of the local environment smells and noise pollution ie the constant humming of these huge extractor fans one ok but three in a riw is plain ridiculous.

Since the kebab place opened its made our lives miserable with the constant washing we have had to do if we open our windows.

Due to these extractors expelling noise and smells into my flat due time flat [REDACTED]
[REDACTED] When the kebab house opened we locally were promised that the smells and noise won't affect us due to all the reports being produced for the planning application.

Sadly in reality thus I'd not been the case and my family are now being forced out by these businesses.

And now my rent is going to go up by nearly a third. I'm only sending this in to the

council to basically feedback your planning department approvals affect the small young families trying to get on in life. Regards [REDACTED]

Kind regards
