

Planning Application Consultation for application 20220705

Dear Peter,

I would be happy for the submitted WSI for an Archaeological Watching Brief to be approved as a first phase of archaeological mitigation at the site. As the condition is for field evaluation and then a second part for any subsequent mitigation works, I wonder if you can approve this WSI to allow development to comment but keep the planning condition in place in case we need to go down the route of trial trenching and/or mitigation excavation/continued watching brief?

I hope that this makes sense. Happy to discuss further.

Kind regards

Casper
