Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	We wish to object most strongly to this application on the following grounds: 1) Increased use of Bush Road / Warren Road by HGV traffic. The access roads to the site are totally unsuited to HGVs and there has already been a marked increase in their visits to and from the site, particularly in the last two weeks. The village of Cuxton provides the only access to the site and these vehicles present a major danger within the village, particularly at school start and finish times. HGVs frequently have to mount the pavement and verges in order to pass through Cuxton and this is totally unacceptable. 2) Brookers Farm and the surrounding area has always been agricultural and the changes which have been carried out by Silverhand have already had a major effect on the landscape. The proposal would formalize the change to industrial usage on a large scale and this would be wholly out of keeping with a rural landscape steeped in history. The proposed development will cause permanent damage to the village of Luddesdown and to the surrounding area. The quality of life for residents will be damaged and any benefit to the local community will be very minimal. Consequently, the application should be refused.
