Reasons for comment:

Comments:	<p>The proposed planning is in green belt land and as it has not been built on before cannot be classed as grey belt land</p> <p>The proposed development should not be allowed as it would increase the amount of traffic entering and using the A227. The A227 is an extremely busy road particularly during the rush hour and the school run and with extra cars will cause more accidents and grid locking the road. The situation being made worse as there is little public transport in the area. The local railways stations are some distance and buses almost non existent.</p> <p>The doctors and local hospital are struggling to cope now without additional population in the area. And no doubt local schools are already full.</p> <p>This is an area of natural beauty and ancient woodland with many rare and endangered birds and animals and their habitat would be destroyed by building in this area.</p>
