Reasons for comment:

Comments:	Having lived here over 40 years I am well aware of the horrendous increase in traffic and frequent congestion resulting in idling engines spewing fumes and this was such a country lane. The roads are often undergoing maintenance repairs and works causing massive delays and hardship to locals. There is barely any public transport and that which we do have is forever dwindling. Our schools are overwhelmed and school traffic caused more issues. The surrounding green fields and woods and countryside is constantly under pressure and already wildlife is struggling with habitat squeezing more and more wildlife into less space. We have bats birds of prey badgers foxes and rare plantlife and insects lizards etc. where will they go as it would seem builders are intent to gobble up all virgin Greenbelt to build on putting profit above environmental protection. All infrastructure is under intense pressure now and it's not like the area has public transport and pavements or safe roads and no street lighting and the proposed plans will forever change the entire landscape to its detriment if permitted.
