Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	We would support this development as the plot is of an expansive nature and the additional buildings and landscaping help to use parts of the plot that would otherwise not be accessible. The nature and design of the out buildings are low level structures and small additions of this type would be ancillary to the main house, and would make sure that the plot and all of its buildings is in line with modern requirements of a house of this stature. We support the application.

Kind regards
