Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I object to this Planning Application as technically there is only one static caravan that was given permission to be on this site and that was on appeal and is subject to compliance with 11 Conditions that GBC are responsible to ensure are completed satisfactorily. Condition 1 cannot be complied with as the area outlined in this Condition appears to not be consistent with the actual physical layout of the site. Given the Appeal granted approval for one static caravan, a Dayroom and standing for vehicles including a touring caravan(s) to submit another Application for 3 Mobile Homes, 2 Touring Caravans, and 2 day rooms claiming it was due to an error when the original Application was made last December really stretches the bounds of credibility. The people submitting these applications are experienced professionals who simply do not make this type of mistake. I do note that all the applications on the whole WPL site have been retrospective and consider this is an abuse of the planning process and is clearly a deliberate action. I also have concerns for the environmental impact of this Application with respect to the correct management of sewage, waste water, surface water and general rubbish. Currently rubbish disposal appears to be by burning in a skip.
