Analysis

Under Class A.1 (g) of the Town and Country Planning (General Permitted Development) (GDPO) (England) Order 2015, as amended, a single family dwelling can extend beyond the rear wall by 6 metres in the case of a terraced property, as long as it does not exceed 4 metres in height.

As set out in the GDPO, Class A.4 (2), the developer has provided sufficient information to support the application; application form, site location plan and additional plans.

The information provided show the proposed development is not within the parameters set out in the GPDO with an eave height of 3.25m, which is in excess of the permitted 3m.

The adjoining properties were consulted in accordance with A.4 (5) and no representations were received. Therefore A.4 (7) has not been triggered and impact on neighbouring amenity does not require investigation.

Conclusion

The proposal fails to comply with Schedule 2, Part 1, Class A.4 (2) & (3) and Class A.3 (a) of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, as the submission does not include a site plan and the submitted block plan is insufficient and fails to state the surrounding road names and the submission does not state the proposed use of materials. As such PRIOR APPROVAL IS REQUIRED AND REFUSED

Full planning permission is required for the development.
