Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	

Comments:

I strongly object to the above planning application because

1. Minor roads & lanes cannot cope with any more traffic. A227 is at capacity and will get worse with traffic cutting through from M20/M26 to A2 when new crossing is built.
 2. The plot does not meet the correct criteria.
 3. Agricultural land issues. Food security is absolutely key to be self sufficient and our farmland is very precious and not for housing.
 4. With climate change we should be looking after nature and habitats farmland & woodland.
 5. I understand this is right on the boundary of outstanding natural beauty and decimating wildlife.
 6. Local facilities cannot cope DVH the Doctors have stated they cannot take more
 7. There are many sites earmarked in Meopham this being the latest which I find quite unbelievable when there are so many Brown sites available.
 8. This application will join up to villages. We must stop urban sprawl so villages do not lose their identity.
 9. I find it hard why any government/Council want to build and ruin our beautiful countryside when there are so many Brown Sites.
 10. I understand that southern water haven't the capacity for more house to cope. So I strongly object to the above application brown site must be priority
-

Kind regards
