Comments:

I heavily object this proposal for several reasons as a concerns member of the community and resident near the proposal. Firstly the countryside is extremely important to our community and myself, the community loves this free area of the village with it being the main reason lots of the community are happy with the area and do not want it replaced. Many of the community myself included own dogs who love to walk in the countryside and the replacement of beautiful countryside with houses is a real negative step. Also as a young professional, this would urge me to leave the village, disrupting the village would make me very unhappy and push me to leave. Another huge concern of mine is the traffic, my parents and many of the community moved and live in Meopham because it is a quiet village that is peaceful and respectful and the increased traffic would be not only very disruptive to daily life but extremely disappointing. Another key concern is key infrastructure such as roads, shops, draining, I can't see how this can go ahead when country roads in the specified area have huge potholes and don't get fixed for months on end, let alone building more roads, plus with the fact there is hardly any shops in the village. This also concerns me regarding doctor appointments, with more residents this will most definitely harm waiting lists for doctor appointments even more which is the exact opposite of what is needed. Lastly, my point is this development would ruin this beautiful, peaceful village, and talking to many people in the area, there is a real negative sentiment to this development and it should not go ahead

Kind regards
