Reasons for comment:

Comments:	Having reviewed the plans, I am objecting to the proposed outbuilding as this will be the fourth building to be built on a site that originally had one bungalow on it. I need to add some context to my objection. When we moved to Burdett Avenue 23 years ago we had complete privacy and couldn't see the original bungalow. Now we are completely overlooked by the two houses that have since been built on the site. I objected to the houses being built at the time for this reason. The houses are in an elevated position, so overlook our garden, therefore I feel another dwelling on the site is a step too far. The veluxe window in the roof of the proposed "annex" will yet again overlooking [REDACTED] garden. When the houses were built we had to put up with noisy building work on a Sunday, and workers constantly staring into our garden and house, which I fear will be repeated when work starts on the proposed outbuilding should it be allowed to go ahead. I feel over the last couple of years I have been living on a building site, with no privacy in my own home, which is now affecting my mental health. As with my original objections, I feel I'm wasting my time objecting, but I feel the need to voice my opinion. After all councils are meant to support existing residents from over development of the area. I also wonder what the outcome would be if myself and my neighbours were to put in for planning permission for so called annexes to be built in our back gardens?
