

20240261

Dear Amanda,

Thank you for consulting us on the submission of the Written Scheme of Investigation (PCA 2024) for the field evaluation stage of the programme of archaeological work in respect of Condition 5 of planning permission 20221179.

I am happy to recommend that the PCA document (Site Code KSCC24) could be formally approved so that work commences on this basis. This satisfies the first part of Condition 5. I recommend that Condition 5 is not discharged in full, however, until the completion of the field evaluation stage and the submission of a report and agreement on the scope of any mitigation that might be required and which is covered by the second part of Condition 5.

I would be happy to discuss any of the above further.

Yours sincerely

Casper
