Reasons for comment:

Comments:

I feel strongly that this planning should not go ahead the A227 is one of the most busiest small narrow roads which is a cut through from the M 25 M20 through to the A2 M2. This Road was described by one of the counsellors as notoriously dangerous and that it should be returned to a B Road because of the amount of problems we have had.

There has been numerous accidents, deaths. With a school buses top ripped off injuring 12 young children one with life changing injuries.

When accidents happen the whole road is shut for 4-5 hours so all tiny lanes around the main road are a nightmare. You can't go anywhere, it is frequently at a standstill with traffic lights and we've had it shut recently for five days because of a water leak.

This is a busy road normally but to add more traffic with house building is a terrible idea

And Norwood lane is extremely narrow to access this area.

I live on the main road. I see what happens to this road every single day and it's dangerous just pulling out from a side. Road is dangerous and when the schools are open. You can't go anywhere people park on either side of the road or down White Post Lane and Willow walk you just can't move.

And when we do have an accident, the emergency services cannot get through when the bus accident happened. It took them 40 minutes to attend this accident bear in mind you've got 12 children that I've had parts of their head Face and other injuries 40 minutes because of the road and to think building more House

houses is a good idea is indescribable

Kind regards
