Reasons for comment:

Comments:	Whoops! I thought this was already up and running...with no planning requested, naughty! Guessing most of the supports are from customers, and agree it's a good idea. But it has its issues, that only living in the area you will notice. There have been lots of lost cars looking for the place! (If I had a quid for every person I've given directions too!) Needs better signage, prior to arrival, but not too much to ruin the surrounding countryside. Obviously once people know where it is, problem solved, but this has been open for months and still happens! The entrance/driveway needs to be better as visitors leave a horrible chalky/muddy mess on the road, which was no path. Also, I have been stuck waiting for people to open/close gate many times....which is quite frustrating! Maybe it needs to be placed further in?! I do however appreciate this is a system used, as many do worry about the potential of the 'allowed' dangerous dogs escaping. Is the space managed, or used on a trust basis which could be taken advantage of?! How big will this get in terms of slots per day, 365 days per year?! More traffic in church street causes many problems, so this is a concern.
