

20240905

Regarding the above planning application for 18 Saunders Road, Northfleet, I just wanted to enclose a photo showing the frontage without any vehicles parked.

If this area of public road is used to park vehicles on a permanent basis, lorries, vans, other vehicles will not be able to turn around in the close without using people drives or going over grass.

I would, and do, find it very difficult to access [REDACTED] driveway, if vehicles are double parked in the area, often I have to ask people to move their vehicles.

I value my parking spaces and would find it hard to park anywhere else in the close, should I not be able to use my designated parking area. Which any visitors to my property also use.

Thank you,
