Reasons for comment:

Comments: Concerned that the property in question is [REDACTED] [REDACTED] large outbuilding very visible. When occupied as a home there was a lot of light polution most of the night, especially when the loft was added. As a residential care home for children aged 5-17, there is likely to be more noise, taking into account the home schooling and the creative music activities as stated.

[REDACTED]

feel that the tranquil space we currently provide will be vastly impacted and detrimental to their wellbeing.

With regard to the young children in care, is the house suitable in a built up residential area? Very close proximity to a main road with all the traffic and also a main route for the emergency services.

Already an area with parking issues due to number of cars, dropped curbs and restrictions.

Note that carers will do 12hr shifts with no residential house manager. Long hours looking after vulnerable children, possibly with additional needs.

[REDACTED] was looking forward to spending time in our garden, which has been relatively peaceful for the last 30 years of living here!

Kind regards
